decentralised direct action
like a flock of birds, we’re stronger together

uncontrollable
diversity of tactics
the flock respects the different tactics & levels of risk different people are able to take

rotated roles
come together to achieve shared goals
distribute centre power evenly

decentralise
decision-making
share information, co-ordinate action, plan together as a network

support & care work
co-ordinated
anticipate police/state actions, prepare & adapt

share skills cultivate dreams & interests
each person contributes in different ways

autonomy
a flock may not be beholden to the directives of a formal organisation, political party, NGO

share skills cultivate dreams & interests
each person contributes in different ways

autonomy
a flock may not be beholden to the directives of a formal organisation, political party, NGO

direct action against environmental destruction, colonialism, the state, capitalism, private property, etc. is defensive. property destruction is not violence. direct action works when it disrupts or blocks & forces power holders & hegemonic systems to concede to your demands or dreams.

stop work, strike, blockade, picket, sit-in, sabotage, culturejam, hack,
live alternatives, educate, share, support, care & collectivise!
