

Week of International Solidarity with Anarchist Prisoners

August 23 - 30

This international week of solidarity has been called to express solidarity with anarchists imprisoned by the state in many places of the world.

Let's set alight the quiet nights and express our solidarity with our siblings and comrades by shaping our praxis of attacking, sabotage destroying, and setting fire to everything that controls us, that indoctrinates and herds us and makes us places, or tricks us into passivity.

When faced with imprisonment, there is no place for resignation, only for the unbreakable desire to see this world burn!

FIRE TO THE PRISONS!

LONG LIVE ANARCHY!
